

China C-Si A-Si CIGS Solar Cell and Module Project Research Report 2009

Hard copy :2500 USD

Electronic copy(PDF) :2500USD

Hard and Electronic copy :3000USD

Pages:146

Tables and figures : 66

Published date : Jul 28, 2009

Summary:

《China C-Si A-Si CIGS Solar Cell and Module Project Research Report 2009》was a professional report focus on China C-Si A-Si CIGS Solar Cell and Module project investment feasibility. It was a special project design report for China National Development and Reform Commission approve. The report introduced Global and China PV demand from 2005-2013, listed 2005-2013 supply of PV(cell and module) according PV upstream raw materials(such as Polysilicon wafer or thin film equipments etc),analyzed PV cell or module Price or Profit margin develop trend according their demand and supply relationship. After that, the report use big space introduced 1000MW C-Si 1000MW A-Si 1000MW CIGS PV Cell and Module Project Feasibility anslysis and gave related conclusions. In the end, Listed a special case of China 1000MW Thin Film Solar Cell project and introduced the project details of investment technology process manufacturing factory finance analysis operating analysis investment return analysis etc, and this project also pass National Development and Reform Commission approve. In a word, It was a depth research report on C-Si(Crystalline Silicon) A-Si(amorphous silicon) CIGS (Cu In Ga Se) Solar cell and module industry. And thanks to the support and assistance from PV experts and related enterprises during QYReserach Team survey and interviews.

Table of Contents:

Chapter One Solar Cell Project Overview 1

- 1.1 C-Si Thin Film Project Summary 1
- 1.2 Solar Cell Project Feasibility Research Conclusions 3
- 1.3 Thin Film Solar Cell Project Key Economy Benefit Information 4
- 1.4 Solar Cell Project Questions and Suggestions 5

Chapter Two Solar Cell Project Background and Development 5

- 2.1 PV Install Market Analysis (Demand) C-Si Thin Film 5
- 2.3 Solar Module Production (Supply) C-Si Thin Film 22
- 2.3 Solar Cell Production (Supply) C-Si 26
- 2.4 Solar Wafer Production (Supply) C-Si 28
- 2.5 Polysilicon Production (Raw Materials) C-Si 29
- 2.6 C-Si Solar Module Supply Demand Analysis 36
- 2.7 Thin Film Solar Module Supply Demand Analysis 37

Chapter Three 1000MW C-Si Solar Cell+Module Project Investment Analysis 41

- 3.1 1000MW C-Si Solar Cell+Module Project Equipment Investment 41
- 3.2 1000MW C-Si Solar Cell+Module Project Fixed Assets Investment 54
- 3.3 1000MW C-Si Solar Cell+Module Project Raw Materials (Wafer Polysilicon etc) 54
- 3.4 1000MW C-Si Solar Cell+Module Project Investment Return Analysis 56
- 3.5 1000MW C-Si Solar Cell+Module Project Investment Return Rate Analysis 57
- 3.6 1000MW C-Si Solar Cell+Module Project Investment Feasibility Conclusion 57

Chapter Four 1000MW A-Si Thin Film Solar Module Project Investment Analysis 58

- 4.1 1000MW A-Si Thin Film Solar Module Project Equipment Investment 59
- 4.2 1000MW A-Si Thin Film Solar Module Project Fixed Assets Investment 78
- 4.3 1000MW A-Si Thin Film Solar Module Project Raw Materials (Substrate Gas etc) 78
- 4.4 1000MW A-Si Thin Film Solar Module Project Investment Return Analysis 107
- 4.5 1000MW A-Si Thin Film Solar Module Project Investment Return Rate Analysis 108
- 4.6 1000MW A-Si Thin Film Solar Module Project Investment Feasibility Conclusion 109

Chapter Five 1000MW CIGS Thin Film Solar Module Project Investment Analysis 110

- 5.1 1000MW CIGS Thin Film Solar Module Project Equipment Investment 110
- 5.2 1000MW CIGS Thin Film Solar Module Project Fixed Assets Investment 118
- 5.3 1000MW CIGS Thin Film Solar Module Project Raw Materials (Substrate Targets etc) 119
- 5.4 1000MW CIGS Thin Film Solar Module Project Investment Return Analysis 120
- 5.5 1000MW CIGS Thin Film Solar Module Project Investment Return Rate Analysis 121
- 5.6 1000MW CIGS Thin Film Solar Module Project Investment Feasibility Conclusion 121

Chapter Six C-Si A-Si CIGS Comparison and Conclusion 122

- 6.1 Investment Return Rate Comparison 122

6.2 Advantage and Disadvantage Comparison 123

6.3 Conclusions 124

Chapter Seven Market Analysis of Case Project 125

7.1 China Macroeconomic Analysis 125

7.2 China Solar Cell Development Analysis 125

7.3 Analysis of Case Project Target Market 126

7.4 Marketing Strategy 126

Chapter Eight Building Conditions and Site Selection 127

8.1 Project Summary 127

8.2 Project Purpose Analysis 127

8.3 Project Design 128

8.4 Project Contents 129

8.5 Project Site Selection 130

Chapter Nine Factory Technology Scheme 131

Chapter Ten Environment Protection and Labour Safety 131

Chapter Eleven Enterprise Structure 132

11.1 Case Project Operating Enterprise Overview 132

11.2 Company Culture 132

11.3 Company Strategy 133

11.4 Company Structure and Job Description 133

11.5 Company Management 135

Chapter Twelve Investment Estimation and Capital Raising 136

Chapter Thirteen Finance Analysis 137

13.1 Finance Analysis Explanation 137

13.2 Finance Analysis Postulated Conditions 137

13.3 Case Project Economic Benefits Calculation 137

Chapter Fourteen Feasibility Conclusions and Suggestions 138
